* Restatement made in Fiscal Year 2015 to correct the presentation of a gain on foreign exchange along with its corresponding income tax impact which was required to be presented under IFRS as other income. The foreign exchange gain was previously disclosed under comprehensive income with no corresponding tax provision. The restatement does not impact the Company's revenues, operating expenses, or net operating income.

Seasonality is reflected in the timing of when foreign currencies are in greater or lower demand. In a normal operating year there is seasonality to the Company's operations with higher revenues generated from March until September and lower revenues from October to February. This coincides with peak tourism seasons in North America when there are generally more travelers entering and leaving the United States and Canada.

On July 9, 2018 the Company announced its wholly-owned subsidiary EBC has entered into a definitive agreement to acquire the assets of a business operating 22 years primarily in the province of Quebec from the private family owners who were advised by Laurentian Bank Securities. These assets include a total of approximately 400 corporate customers that are engaged in international payments. It is expected that approximately 10 employees will be retained and employed in EBC's new Montreal Office. The transaction is subject to regulatory approval and will not close until all approvals have been obtained.
