

Position Title: Security Analyst

Position Type

Full Time

Work Authorization

U.S Citizen or U.S. National, Permanent U.S. Resident

Description

The Security Analyst is responsible for monitoring, evaluating, and maintaining systems and procedures to safeguard internal information systems, network, databases, and Web-based security. The Analyst will conduct vulnerability assessments and monitor systems, networks, databases, and websites for security events. Responds to alerts from information security tools. Reports, investigates, and resolves security incidents. Recommends and implements changes to enhance system security and prevent unauthorized access. Research security trends, new methods and techniques used in unauthorized access of data to preemptively eliminate the possibility of system breach. Ensures compliance with regulations and privacy laws.
