CURRENCY EXCHANGE
INTERNATIONAL

Management Discussion and Analysis

(All amounts expressed in U.S. Dollars unless otherwise noted)

For the three and six month periods ended April 30, 2014 and March 31, 2013

Scope of Analysis

This Management Discussion and Analysis ("**MD&A**") covers the results of operations, and financial condition of Currency Exchange International, Corp. and its subsidiaries (the "**Company**," "**Currency Exchange**," or "**CXI**") for the three and six month periods ended April 30, 2014 and March 31, 2013, including the notes thereto. This document is intended to assist the reader in better understanding operations and key financial results as they are, in our opinion, at the date of this report.

This MD&A has been prepared by management at June 3, 2014 in accordance with International Financial Reporting Standards ("**IFRS**") issued by the International Accounting Standards Board ("**IASB**") and interpretations of the International Financial Reporting Interpretations Committee ("**IFRIC**") and should be read in conjunction with the condensed consolidated financial statements of the Company for the three and six month periods ended April 30, 2014 and March 31, 2013 and the notes thereto. A detailed summary of the Company's significant accounting policies is included in Note 2 of the Company's audited consolidated financial statements for the thirteen-month period ended October 31, 2013. The functional currency of the Company and its indirect U.S. subsidiary, Currency Exchange International America Corp. ("**CXIA**"), is the U.S. Dollar. The functional currency of the Company's wholly-owned Canadian subsidiary, Currency Exchange International of Canada Corp. ("**CXIC**"), is the Canadian Dollar. The Company's presentation currency is the U.S. Dollar. Unless otherwise noted, all references to currency in this MD&A refer to U.S. Dollars. The consolidated financial statements and the MD&A have been reviewed by the Company's Audit Committee and approved by its Board of Directors.

In this document, "our," "Company," and "CXI" refer to Currency Exchange International, Corp. collectively with its subsidiaries, CXIC and CXIA.

Additional Information

Additional information relating to the Company, including annual financial statements, is available on the Company's SEDAR profile at www.sedar.com and on the Company's website at www.ceifx.com ("**CEIFX**").

Forward Looking Statements

This MD&A contains certain “forward-looking information” as defined in applicable securities laws. These statements relate to future events or the Company’s future performance. All statements other than statements of historical fact are forward-looking information. Often, but not always, forward-looking information can be identified by the use of words such as “plans”, “expects”, “budgeted”, “scheduled”, “estimates”, “continues”, “forecasts”, “projects”, “predicts”, “intends”, “anticipates” or “believes”, or variations of, or the negatives of, such words and phrases, or state that certain actions, events or results “may”, “could”, “would”, “should”, “might” or “will” be taken, occur or be achieved. The forward-looking information in this MD&A speaks only as of the date of this MD&A or as of the date specified in such statements. The following table outlines certain significant forward-looking information contained in this MD&A and provides the material assumptions used to develop such forward-looking information and material risk factors that could cause actual results to differ materially from the forward looking information.

Forward-looking information	Assumptions	Risk factors
Status of CXI’s application to continue its subsidiary as a Canadian Schedule I bank, and the objectives for such bank	Regulatory and governmental approval for the establishment of the bank will be received on a timely basis upon terms favorable to CXI; the bank will be able to attract and retain clients	Approvals are made at the discretion of governmental bodies and may not be granted on terms favorable to CXI or at all; the bank has no history of operations
Expectations regarding CXI’s ratio of operating expenses to total revenues	The operations of CXI in the near term, and the costs associated therewith, will be consistent with management’s current expectations; foreign exchange rates and other applicable economic conditions are favorable to CXI; CXI will be able to successfully execute its expansion plans	The possibility that operations will not be consistent with recent history and management’s expectations; increases in transactional or other costs; fluctuations in foreign exchange markets; changes in economic conditions
Sensitivity analyses relating to foreign currencies and interest rates	All factors other than the variable in question remain unchanged; CXI’s entire unhedged balance of foreign currency holdings is affected uniformly by changes in exchange rates; CXI’s interest-bearing instruments and obligations were constant during the period	Exchange rate and interest rate fluctuations

Inherent in forward-looking information are risks, uncertainties and other factors beyond the Company’s ability to predict or control. Please also make reference to those risk factors referenced in the “Risks Factors” section in the Company’s MD&A for the thirteen-month period ended October 31, 2013. Readers are cautioned that the above chart does not contain an exhaustive list of the factors or assumptions that may affect the forward-looking information in this MD&A, and that the assumptions underlying such statements may prove to be incorrect. Actual results and developments are likely to differ, and may differ materially, from those expressed or implied by the forward-looking information contained in this MD&A.

Forward Looking Statements (continued)

Forward-looking information involves known and unknown risks, uncertainties and other factors that may cause the Company's actual results, performance or achievements to be materially different from any of its future results, performance or achievements expressed or implied by forward-looking information. All forward-looking information herein is qualified by this cautionary statement. Accordingly, readers should not place undue reliance on forward-looking information. The Company undertakes no obligation to update publicly or otherwise revise any forward-looking information, whether as a result of new information or future events or otherwise, except as may be required by applicable securities laws. If the Company does update any forward-looking information, no inference should be drawn that it will make additional updates with respect to that or other forward-looking information, unless required by applicable securities laws.

Change in reporting period

Effective February 2013, Currency Exchange International, Corp. changed its fiscal year end to October 31, 2013 to conform with the same change in fiscal year end made by its wholly owned subsidiary corporation, CXIC to comply with the reporting period for Canadian chartered banks as part of the ongoing process of CXIC applying for a bank license in Canada. As a result, the condensed interim consolidated financial statements and the MD&A are presented as the three and six month periods ended April 30, 2014 compared to the three and six month periods ended March 31, 2013.

Overview

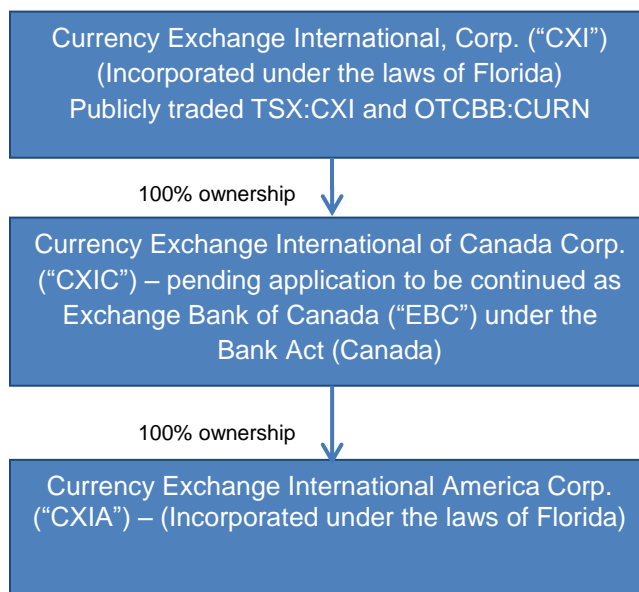

CXI is a publicly traded company (TSX:CXI;OTCBB:CURN) specializing in providing currency exchange and related products to banks, money service businesses, travel companies, and to clients through its company owned branches and inventory on consignment locations, throughout the United States and Canada, by utilizing the Company's proprietary online software system, CEIFX. The Company has developed CEIFX, its proprietary customizable web-based software, as an integral part of its business and believes that it represents an important competitive advantage. CEIFX is also an on-line compliance and risk management tool. The trade secrets associated with CEIFX are protected via copyright and secure maintenance of source code by the head office. CEIFX is updated regularly and on-going system development and enhancement is a core activity at the Company.

On November 23, 2012, CXI submitted its application to continue its wholly-owned subsidiary, CXIC, as a new Canadian Schedule I bank. Subject to review and approval of the application by the Office of the Superintendent of Financial Institutions ("OSFI" - Canada) and the Minister of Finance (Canada), the new bank will be called "Exchange Bank of Canada" in English and "Banque de Change du Canada" in French and will have its head office in Toronto.

The objective of the Exchange Bank of Canada is to expand current and future business opportunities and become a leading banker's bank for foreign exchange products and services. Obtaining a Canadian bank charter affords the Company numerous advantages including the opportunity to bank with Central Banks, thereby obtaining a source of stable, cost-effective funds, collateral reductions with corresponding banks, and enhancing existing bank relationships.

Overview (continued)

CXIC wholly owns CXIA, a Florida corporation incorporated under the *Florida Business Corporation Act*. CXIA was formed pursuant to a request from OSFI to reorganize the corporate structure so as to transfer the operations and assets of the U.S. based business to an entity wholly owned by CXIC.

On October 31, 2013 the Company restructured its operations to add additional capital into CXIC as part of its bank application process.

The Company is a reporting issuer in the provinces of British Columbia, Alberta and Ontario.

The Company has the following sources of revenues which are reported as commissions and fees:

- Commission revenue is comprised of the spread between the cost and selling price of foreign currency products, including bank notes, wire transmissions, cheque collections and draft issuances and the revaluation of foreign exchange positions to market value, combined with the net gain or loss from foreign currency forward contracts used to offset the revaluation of inventory positions and commissions paid to bank and non-bank financial institutions on the sale and purchase of currency products. The amount of this spread is based on competitive conditions and the convenience and value added services offered;
- Fee revenue is comprised of the following:
 - International exchange fees generated at the Company's branch locations, including foreign currency (banknote) exchange, foreign traveller's cheques, and fees collected on payroll cheque cashing; and
 - Fees collected on foreign wire transfers, foreign drafts, and check collection transactions.

Overview (continued)

The following are some of the characteristics of the Company's revenue streams:

- The Company operates 5 vaults located within the United States and Canada that serve as distribution centers for its branch network as well as order fulfillment centers for its clients including banking institutions, money service businesses, and other corporate clients. Revenues generated from vaults have greater scale as the Company maintains a sales force to increase its geographic customer base. Exchange rate margins vary from customer to customer and are dependent on criteria such as exchange volumes and customer setup. On-boarding of new clients, specifically banking clients, normally require an upfront investment, such as training, and currency signage, as well as additional shipping costs to distribute the materials. The Company also normally absorbs information technology costs to customize the CEIFX software for specific client use during the customer implementation phase. There are two common customer setups:
 - Centralized setup - For customers with a high volume of foreign currency exchange who maintain and manage their own inventory in central vault facilities, the Company offers bulk wholesale banknote trading. Trades of this nature are generally executed at lower margins as the cost per transaction is low and the average value is high. The customer implementation phase is normally shorter and the costs of on-boarding clients is low;
 - Decentralized setup - Many customers have determined that it is advantageous to avoid a currency inventory and allow their locations to buy and sell directly from CXI. Transactions in a decentralized setup typically are executed at a higher margin as the average transaction is low and the cost to fulfill each trade is higher than that of a centralized setup. Several of the Company's financial institutions outsource their currency needs in return for a commission based upon exchange volume. When a client outsources their currency needs, the Company is granted access to the entire branch network thus immediately increasing its geographic footprint and expanding its customer base. The customer implementation phase is normally longer in a decentralized setup and the cost of client on-boarding is higher as these clients normally require additional training and support;
- The Company operates 29 branch locations which are located in high tourist traffic areas, staffed by CXI employees, and located across the United States. These locations hold domestic and foreign currencies to buy and sell on demand. The currency exchange margins associated with the transactions occurring at these locations are generally higher in order to recapture costs of deployed capital in the form of domestic and foreign currencies, rent, payroll, and other general and administrative costs;
- CXI currently maintains inventory in the form of domestic and foreign bank notes in banks and other high traffic locations. These locations can be very profitable as there are no occupancy costs or payroll. Essentially, foreign exchange currency is placed in these locations on a consignment basis. At April 30, 2014, the Company had inventory on consignment in 118 locations across the United States. To encourage inventory turnover, the Company pays commissions as a percentage on volumes generated by these affiliates; and
- Company owned branch locations generally act as a net buyer of foreign currency whereas CXI's bank and non-bank clients act as a net seller. Excess currency collected via the branch network can be redeployed to banks and non-bank clients which reduce the need to source currency through wholesale sources at a greater cost, thus increasing currency margins.

Management Discussion and Analysis
 (All amounts expressed in U.S. Dollars unless otherwise noted)
 For the three and six month periods ended April 30, 2014 and March 31, 2013

Overview (continued)

The Company has aggressively grown its branch network as well as the number of wholesale relationships over the years. Below is a branch and customer matrix of the 29 branch locations:

Store	City	State	Start Date (Fiscal Year)	Store	City	State	Start Date (Fiscal Year)
Apple Bank - Avenue of Americas	New York	NY	FY 2011	Mechanics Bank - Berkeley	Berkeley	CA	FY 2007

Number of transacting locations	88	190	267	1983	2455	5,741	6099

The Company's largest asset is cash. The cash position consists of local currency notes, both in U.S. and Canadian Dollars, held in inventory at its branch and consignment locations to facilitate the buying and selling of foreign currency, as well as foreign currency held at the Company's vaults, branch locations, consignment locations, or cash inventory in transit between the Company and its locations. The Company also has traditional bank deposits which act as reserves to maintain operations and as settlement accounts to facilitate currency transactions at various financial institutions.

Accounts receivable consist primarily of bulk wholesale transactions where the Company is awaiting payment. Receivables are highly liquid and typically have a settlement time of two business days with most buyers being banks and other financial institutions.

Accounts payable consist mainly of foreign currency transactions and commissions payable at period end where the Company receives currency from a customer and then remits payment at a later date.

Management Discussion and Analysis
(All amounts expressed in U.S. Dollars unless otherwise noted)
For the three and six month periods ended April 30, 2014 and March 31, 2013

Overview (continued)

Initial Public Offering

On March 9, 2012, the Company completed its initial public offering ("**IPO**," or "**Offering**") on the Toronto Stock Exchange ("**TSX**") by issuing 1,380,000 units at a price of Cdn\$6.65 per unit for aggregate proceeds of Cdn\$9,177,000. Each Unit was comprised of one common share in the capital stock of the Company ("**Common Share**") and one Common Share Purchase Warrant ("**Warrant**") which was able to be exercised at a price of Cdn\$7.50 per share until an expiration of September 8, 2013. In addition, the Company issued 82,800 broker compensation units which were comprised of one Common Share and one Warrant which were able to be exercised at \$7.50 per share. During the thirteen-month period ended October 31, 2013, 82,680 broker units were exercised for proceeds of Cdn\$549,822 (\$548,264) and 1,435,725 warrants were exercised for proceeds of Cdn\$10,767,938 (\$10,384,109). Funds received were used to finance foreign currency inventories at vault locations, increase its branch and inventory on consignment network, and enhance its proprietary software, CEIFX, as well as for debt reduction.

Purchase of assets from U.S. Exchange House, Inc.

On March 28, 2014 the Company purchased certain assets of U.S. Exchange House, Inc. ("USEH"), pertaining to its banknote operations located in the United States and Canada. The Company acquired USEH's customer trading relationships, certain prepaid and fixed assets and the USEH trading software used to operate the bank note business. CXI paid \$2,350,000 in cash on closing and will have two additional contingent payments of up to a maximum of \$1,325,000 each on the first and second anniversary after closing. The additional payments will be based on the amount of revenue generated from the customers acquired. The Company recorded expenses in the current period of \$138,013 in legal and other professional fees to complete the transaction.

SELECTED FINANCIAL DATA

The below chart summarizes the performance of the Company over the last eight fiscal quarters. Operating income for prior periods has been adjusted to exclude the effects of depreciation and amortization.

Period (unaudited)	Date	Revenue \$	Operating income \$	Net income \$	Total Assets \$	Total equity \$	Earnings per share (diluted) \$
Three-months ending	30-Apr-14	4,487,432	1,109,212	466,774	37,244,354	30,586,996	0.09

Seasonality is reflected in the timing of when foreign currencies are in greater or lower demand. In a normal operating year there is seasonality to the Company's operations with higher commissions generally from March until September and fewer commissions from October to February. This coincides with peak tourism seasons in North America when there are generally more travelers entering and leaving the United States and Canada.

Management Discussion and Analysis
 (All amounts expressed in U.S. Dollars unless otherwise noted)
 For the three and six month periods ended April 30, 2014 and March 31, 2013

Results of operations – six month period ended April 30, 2014

A breakdown of revenues by geographic location is presented below:

	Total revenues	
	Six months ended April 30, 2014	Six months ended March 31, 2013
	\$	\$
United States	4,671,083	5,138,123
Canada	3,943,356	589,222
Total	8,614,439	5,727,345

During the six month period ended April 30, 2014 revenues increased by 50% to \$8,614,439 compared to \$5,727,345 for the six month period ended March 31, 2013. Revenue growth resulted from establishing five new Company owned branch locations as well as 156 new wholesale relationships, of which 61 were added as a result of the acquisition of customer relationships from USEH, making up approximately 3,210 locations since March 31, 2013.

Additionally, there was a continuation of higher trading volumes of exotic currencies, such as the Iraqi Dinar and the Vietnamese Dong which are primarily speculative in nature. Due to their speculative nature, the Company charges a premium when buying and selling these currencies. The Company had previously seen increases of these exotic currencies for the year ended September 30, 2011 and for the first half of year ended September 30, 2012; however, the volumes had begun to decline beginning in the second half of the year ended September 30, 2012 and had reverted back to historical levels for the thirteen-month period ended October 31, 2013.

On October 31, 2013, the Company restructured its operations to add additional capital into CXIC as part of its bank application process. As a result, the cash and capital in the Canadian subsidiary increased substantially. Additionally for the six month period ended April 30, 2014, the Company realized revenues of \$2,953,965 in Canada that would have previously been classified as being generated in the United States.

If the aforementioned revenues of \$2,953,965 were to be subtracted from Canada and added back to the United States for the six month period ended April 30, 2014, commission revenue would increase 48% to \$7,625,048 from \$5,138,123 compared to the six month period ended March 31, 2013 and relate primarily to new revenue generated from the Company's branches from adding new locations and instituting an increased pricing strategy during peak periods on the weekends, establishing new relationships, adding bank and non-bank locations, and increases in volumes of exotic currencies. During the six month period ended April 30, 2014, the Company increased its branch network in the United States to 29 Company-owned locations compared to 24 Company-owned locations for the six months ended March 31, 2013. In the United States, the Company added 84 new wholesale relationships with over 3,000 locations since March 31, 2013.

Results of operations – six month period ended April 30, 2014 (continued)

After adjusting revenues downward by \$2,953,965, revenues increased 68% in Canada to \$989,391 during the six month period ended April 30, 2014 from \$589,222 for the six month period ended March 31, 2013; and are related to the growth of the Canadian wholesale operation. CXIC has added 72 new wholesale relationships with 210 locations since March 31, 2013.

During the six month period ended April 30, 2014, operating expenses increased 35% to \$6,534,448 compared to \$4,845,296 for the six month period ended March 31, 2013, the major components of which are presented below:

	Six months ended April 30, 2014 \$	Six months ended March 31, 2013 \$	Change \$	Change %
Salaries and benefits	3,192,888	2,359,039	833,849	35%
Rent	920,874	752,411	168,463	22%
Legal, professional and director's fees	455,290	417,648	37,642	9%
Postage and shipping	585,401	477,698	107,703	23%
Stock based compensation	330,494	127,682	202,812	159%
Other general and administrative	1,049,501	710,818	338,683	48%
Total operating expenses	6,534,448	4,845,296	1,689,152	35%

- Salaries and benefits increased 35% to \$3,192,888 from \$2,359,039 which is attributed to increases in a bonus accrual as part of the Company's short term incentive plan, changes in remuneration to key employees, increases in the number of Company owned branch outlets, increases in the number of full and part time employees in CXIC, including a new Chief Financial Officer hired in May of 2013, as well as full and part time staff added in the areas of compliance, information technology, operations, sales, vaults and finance in the United States. The Company now employs a total of 180 full and part time employees in the United States and Canada compared to 136 employees for the six month period ended March 31, 2013. Full-time employees are engaged in sales, management, administration, and branch tellers/managers. Part-time employees are primarily employed in branch locations and administrative positions;
- Rent increased 22% to \$920,874 from \$752,411 due to the opening of new branch outlets and the addition one new vault location in Los Angeles. The Company has opened five outlets since March 31, 2013 and has relocated and enlarged its vault facilities in Toronto and Miami and also moved and enlarged its corporate headquarters in Orlando, Florida;
- Legal, professional and directors fees increased 9% to \$455,290 from \$417,648;
- Postage and shipping increased to \$585,401 from \$477,698 primarily due to an increase in the frequency of inbound and outbound shipments. The Company had a 23% increase in shipping costs while the number of inbound and outbound shipments increased by approximately 95%;
- Stock based compensation increased to \$330,494 from \$127,682 for the vested portion of stock options granted pursuant to the Company's stock option plan. The options have an expiry date of five years from the date of the grant, unless otherwise stated by the Board of Directors, and have a weighted average exercise price of Cdn\$8.84. There were 378,060 options outstanding at April 30, 2014 compared to 206,000 shares at March 31, 2013; and

Results of operations – six month period ended April 30, 2014 (continued)

- Other general and administrative increased 48% to \$1,049,501 from \$710,818. Other expenses are comprised of insurance, travel and lodging, software maintenance, utilities, bank service charges, foreign exchange gains and losses through profit and loss, and other general and administrative expenses. The increase is a result of foreign exchange losses on the revaluation of foreign financial assets and liability balances, non-capitalized costs for opening new offices in Toronto, Canada, Orlando, Florida, and Miami, Florida as well as expenditures to support the expansion of the Company's branch network.

The ratio of operating expenses to total revenue for the six month period ended April 30, 2014 was 76% compared to 85% for the six month period ended March 31, 2013. The ratio traditionally is higher during the winter months and decreases as the fiscal year progresses. This is due to the cyclical nature of the business as the Company has more exchange volumes from March to September and the Company is able to redeploy the currency it purchases in the summer months from its branch locations and resell it to other bank and non-bank customers, thus bypassing currency wholesalers and widening its gross margins. The Company expects this ratio to remain steady in the short term as the Company continues to incur costs while building infrastructure to expand its branch network and vault operations. In time, the Company can increase its operating efficiency by the addition of new bank and non-bank financial institutions in Canada and the United States to redeploy excess currency purchased by its branches, affiliate partners, and other clientele.

Other income and expenses are comprised of the following:

	Six months ended April 30, 2014 \$	Six months ended March 31, 2013 \$
Other income (expense)	33,824	6,413
Fair value change in warrant liability	-	(636,321)
Interest and accretion expense	(18,473)	(12,231)
Expenses related to Exchange Bank of Canada	(48,841)	(193,538)
Expenses related to USEH asset acquisition	(138,013)	-
Depreciation and amortization	(257,397)	(138,459)
Income tax expense	(733,161)	(402,663)
Total other income/(expense)	(1,162,061)	(1,376,799)

- Other income increased to \$33,824 from \$6,413 and relates to interest income for surplus cash deposits held at various financial institutions in Canada and the United States;
- Fair value change in warrant liability is \$Nil during the six month period ended April 30, 2014 from a loss of \$636,321 for the six month period ended March 31, 2013 and relates to a marked to market adjustment of the Company's issued and outstanding warrants, of which 1,462,680 were outstanding on March 31, 2013. On September 8, 2013 warrants that had not been exercised expired, and the marked to market liability was extinguished at that time;
- Interest and accretion expense increased to \$18,473 from \$12,231 and relate primarily to interest payments on credit lines;
- Expenses related to Exchange Bank of Canada decreased to \$48,841 from \$193,538 and relate to legal and administrative expenses to file and process the bank license application;

Results of operations – six month period ended April 30, 2014 (continued)

- Expenses related to asset acquisition increased to \$138,013 from \$Nil for legal and other professional fees incurred to complete the acquisition of the assets of the banknote business of USEH;
- Depreciation and amortization increased to \$257,397 from \$138,459 and relates to amortization of the Company's intangible assets as well as fixed assets being depreciated over their estimated economic life. Approximately \$75,000 of the increase was attributable to amortization of the assets acquired from USEH; and
- Income tax expense increased to \$733,161 from \$402,663 and is a total of federal income tax as well as various state and provincial taxes for the jurisdictions in which the Company operates.

Results of operations – three month period ended April 30, 2014

A breakdown of revenues by geographic location is presented below:

	Total revenues	
	Three months ended April 30, 2014 \$	Three months ended March 31, 2013 \$
United States	2,434,042	2,637,391
Canada	2,053,390	281,901
Total	4,487,432	2,919,292

During the three month period ended April 30, 2014 revenues increased 54% to \$4,487,432 compared to \$2,919,292 for the three month period ended March 31, 2013. Revenue growth resulted from establishing five new Company owned branch locations as well as establishing new wholesale relationships with bank and non-bank financial institutions.

Additionally, there was a continuation of higher trading volumes of exotic currencies, such as the Iraqi Dinar and the Vietnamese Dong which are primarily speculative in nature. Due to their speculative nature, the Company charges a premium when buying and selling these currencies. The Company had previously seen increases of these exotic currencies for the year ended September 30, 2011 and for the first half of year ended September 30, 2012; however, the volumes had begun to decline beginning in the second half of the year ended September 30, 2012 and had reverted back to historical levels for the thirteen month period ended October 31, 2013.

On October 31, 2013 the Company restructured its operations to add additional capital into CXIC as part of its bank application process. As a result, the cash and capital in the Canadian subsidiary increased substantially. Additionally for the three month period ended April 30, 2014, the Company realized revenues of \$1,519,396 in Canada that would have previously been classified as being generated in the United States.

Results of operations – three month period ended April 30, 2014

If the aforementioned revenues of \$1,519,395 were to be subtracted from Canada and added back to the United States, commission revenue would increase 50% to \$3,953,438 from \$2,637,391 for the three month period ended March 31, 2013 and relate primarily to new revenue generated from the Company's branches from adding new locations and instituting an increased pricing strategy during peak periods on the weekends, establishing new relationships and adding bank and non-bank locations, and increases in volumes of exotic currencies. During the three month period ended April 30, 2014, the Company increased its branch network in the United States to 29 Company-owned locations compared to 24 Company-owned locations for the three month period ended March 31, 2013. The Company has also added several new wholesale relationship and locations since March 31, 2013.

After adjusting revenues downward by \$1,519,396, revenues increased 89% in Canada to \$533,995 during the three month period ended April 30, 2014 from \$281,901 for the three month period ended March 31, 2013 and are related to the growth of the Canadian wholesale operation. The USEH asset acquisition added several new banknote customers to CXIC since March 31, 2013.

During the three month period ended April 30, 2014, operating expenses increased 40% to \$3,378,220 compared to \$2,414,085 for the three month period ended March 31, 2013, the major components of which are presented below:

	Three months ended April 30, 2014 \$	Three months ended March 31, 2013 \$	Change \$	Change %
Salaries and benefits	1,606,281	1,212,836	393,445	32%
Rent	475,674	376,887	98,787	26%
Legal, professional and director's fees	250,629	205,734	44,895	22%
Postage and shipping	316,828	220,450	96,378	44%
Stock based compensation	153,858	81,835	72,023	88%
Other general and administrative	574,950	316,343	258,607	82%
Total operating expenses	3,378,220	2,414,085	964,135	40%

- Salaries and benefits increased 32% to \$1,606,281 from \$1,212,836 which is attributed to increases in a bonus accrual as part of the Company's short term incentive plan, changes in remuneration to key employees, increases in the number of Company owned branch outlets, increases in the number of full and part time employees in CXIC, including a new Chief Financial Officer hired in May of 2013, as well as full and part time staff added in the areas of compliance, information technology, operations, sales, vaults and finance in the United States. The Company now employs a total of 180 full and part time employees in the United States and Canada compared to 136 employees for the three month period ended March 31, 2013. Full-time employees are engaged in sales, management, administration, and branch tellers/managers. Part-time employees are primarily employed in branch locations and administrative positions;
- Rent increased to \$475,674 from \$376,887 due to the opening of new branch outlets and the addition one new vault location in Los Angeles, California. The Company has opened five outlets since March 31, 2013 and has relocated and enlarged its vault facilities in Toronto and Miami, and also moved its corporate headquarters in Orlando;

Results of operations –three month period ended April 30, 2014 (continued)

- Legal, professional and directors fees increased 22% to \$250,629 from \$205,734;
- Postage and shipping increased to \$316,828 from \$220,450 primarily due to an increase in the frequency of inbound and outbound shipments. The Company had a 44% increase in shipping costs while the number of inbound and outbound shipments increased by approximately 120%;
- Stock based compensation increased to \$153,858 from \$81,835 for the vested portion of stock options granted pursuant to the Company's stock option plan. The options have an expiry date of five years from the date of the grant, unless otherwise stated by the Board of Directors, and have a weighted average exercise price of Cdn\$8.84. There were 378,060 options outstanding at April 30, 2014 compared to 206,000 shares at March 31, 2013; and
- Other general and administrative increased to \$574,950 from \$316,343. Other expenses are comprised of insurance, travel and lodging, software maintenance, utilities, bank service charges, foreign exchange gains and losses through profit and loss, and other general and administrative expenses. The increase is a result of foreign exchange losses on the revaluation of foreign financial assets and liability balances, non-capitalized costs for opening new offices in Toronto, Canada, Orlando, Florida, and Miami, Florida, as well as expenditures to support the expansion of the Company's branch network.

The ratio of operating expenses to total revenue for the three month period ended April 30, 2014 was 75% compared to 83% for the three month period ended March 31, 2013. The ratio traditionally is higher during the winter months and decreases as the year progresses. This is due to the cyclical nature of the business as the Company has more exchange volumes from March to September and the Company is able to redeploy the currency it purchases in the summer months from its branch locations and resell it to other bank and non-bank customers, thus bypassing currency wholesalers and widening its gross margins. The Company expects this ratio to remain steady in the short term as the Company continues to incur costs while building infrastructure to expand its branch network and vault operations. In time, the Company can increase its operating efficiency by the addition of new bank and non-bank financial institutions in Canada and the United States to redeploy excess currency purchased by its branches, affiliate partners, and other clientele.

Other income and expenses are comprised of the following:

	Three months ended April 30, 2014 \$	Three months ended March 31, 2013 \$
Other income (expense)	14,448	4,500
Fair value change in warrant liability	-	(639,192)
Interest and accretion expense	(14,976)	(6,583)
Expenses related to Exchange Bank of Canada	(18,994)	(60,149)
Expenses related to USEH asset acquisition	(138,013)	-
Depreciation and amortization	(169,612)	(69,849)
Income tax expense	(315,291)	(309,021)
Total other income/(expense)	(642,438)	(1,080,294)

- Other income increased to \$14,448 from \$4,500 and relates to interest income for surplus cash deposits held at various financial institutions in Canada and the United States;

Management Discussion and Analysis

(All amounts expressed in U.S. Dollars unless otherwise noted)

For the three and six month periods ended April 30, 2014 and March 31, 2013

Results of operations –three month period ended April 30, 2014 (continued)

- Fair value change in warrant liability is \$Nil during the three month period ended April 30, 2014 from a loss of \$639,192 for the three month period ended March 31, 2013 and relate to a marked to market adjustment of the Company's issued and outstanding warrants, of which 1,462,680 were outstanding at March 31, 2013. On September 8, 2013 warrants that had not been exercised expired, and the liability was extinguished at that time;
- Interest and accretion expense increased to \$14,976 from \$6,583 and relate primarily to interest payments on credit lines;
- Expenses related to Exchange Bank of Canada decreased to \$18,994 from \$60,149 and relate to legal and administrative expenses to file and process the bank license application;
- Expenses related to asset acquisition increased to \$138,013 from \$Nil for legal and other professional fees incurred to complete the acquisition of the assets of the banknote business of USEH;
- Depreciation and amortization increased to \$382,291 from \$69,849 and relates to amortization of the Company's intangible assets as well as fixed assets being depreciated over their economic life. Approximately \$75,000 of the increase was attributable to amortization of assets acquired from USEH; and
- Income tax expense increased to \$315,291 from \$309,021 and is a total of federal income tax as well as various state and provincial taxes for the jurisdictions in which the Company operates.

Cash flows

Cash flows from operating activities during the six month period ended April 30, 2014 resulted in an outflow of \$3,962,037 compared to an outflow of \$640,215 during the six month period ended March 31, 2013. The reason for the decrease in operating cash was due primarily to increases in accounts receivable and to decreases in accounts payable. The actual amount of accounts receivables and accounts payable fluctuate widely from period to period due to the volume of activity and timing differences. In most instances accounts receivable and accounts payable have a settlement cycle of 24-48 hours. Operating cash flow is generated by commission and fee income, and is offset by operating expenses.

Cash used in investing activities during the six month period ended April 30, 2014 resulted in an outflow of \$2,576,541 compared to an outflow of \$227,055 during the six month period ended March 31, 2013. The Company initially paid \$2,350,000 to acquire USEH's customer trading relationships, prepaid and fixed assets, and computer software.

Cash provided by financing activities during the six month period ended April 30, 2014 was \$1,825,000 compared to \$548,264 generated during the six month period ended March 31, 2013. The Company increased its net borrowings by \$1,825,000 from its line of credit held with BMO Harris Bank, N.A. during the six month period ended April 30, 2014. During the six month period ended March 31, 2013, Cdn\$549,822 (\$548,264) was generated from the exercise of 82,680 broker options at a price of Cdn\$6.65 per option.

Management Discussion and Analysis
 (All amounts expressed in U.S. Dollars unless otherwise noted)
 For the three and six month periods ended April 30, 2014 and March 31, 2013

Liquidity and capital resources

At April 30, 2014, the Company had working capital of \$26,402,625 (October 31, 2013 - \$28,935,018). The main reason for the decline in working capital was due to the acquisition of assets from USEH.

The Company maintains a Cdn\$2,000,000 credit line with a shareholder and a revolving line of credit with BMO Harris Bank, N.A. for up to \$6,000,000 (\$4,175,000 available at April 30, 2014) to assist with its short-term cash flow needs.

Selected annual and quarterly information

The following tables set out selected consolidated financial information of the Company for the periods indicated. Each investor should read the following information in conjunction with those financial statements and notes thereto. The operating results for any past period are not necessarily indicative of results for any future period. The selected financial information set out below has been derived from the consolidated financial statements of the Company.

	Thirteen months ended October 31, 2013 (1)	Twelve months ended September 30, 2012	Twelve months ended September 30, 2011	Nine months ended September 30, 2010 (2)
	\$	\$	\$	\$
Revenues	15,990,434	12,314,473	8,683,705	3,407,289

*Excludes Depreciation and Amortization

Notes:

1. The Company changed its year-end to October 31, and reported on the thirteen month period ended October 31, 2013.
2. The Company changed its year-end to September 30, and reported on the nine month period ended September 30, 2010 as a transition year.
3. Adjusted for a 2:1 share split effective June 28, 2011.

Management Discussion and Analysis
 (All amounts expressed in U.S. Dollars unless otherwise noted)
 For the three and six month periods ended April 30, 2014 and March 31, 2013

The following is a summary of unaudited financial data for the most recently completed eight quarters. The Company has restated operating expenses and operating income to exclude the effects of depreciation and amortization.

Three months ended	Total revenues \$	Operating expenses* \$	Operating income \$	Total assets \$
April 30, 2014	4,487,432	3,378,220	1,109,212	37,244,354
January 31, 2014	4,127,007	3,156,228	970,779	32,844,973
October 31, 2013 (1)	6,463,406	4,121,694	2,341,712	33,681,819
June 30, 2013	3,799,683	2,630,929	1,168,754	19,997,719
March 31, 2013	2,919,292	2,414,085	505,207	18,709,964
December 31, 2012	2,808,053	2,431,210	376,843	19,929,308
September 30, 2012	3,369,548	1,865,641	1,503,907	18,225,628
June 30, 2012	3,152,246	2,414,069	738,177	17,275,581

*Excludes Depreciation and Amortization

Notes:

1. 4 month period ended October 31, 2013.

The quarter ending September 30, 2012 had higher operating income due to a reclassification of operating expenses incurred during the fiscal year to one-time expenditures relating to the Company's initial public offering and the pursuit of the Canadian bank license.

Commitments and contingencies

The Company has entered in to non-cancellable operating leases with terms in excess of one year for the use of certain facilities. The minimum rental payments associated with these leases are \$3,368,186 and are payable as follows:

Year ended	Remaining minimum payments required
October 31, 2014	\$658,194
October 31, 2015	\$964,718
October 31, 2016	\$653,038
October 31, 2017	\$597,793
October 31, 2018	\$394,999
October 31, 2019 and thereafter	\$99,443
Total	\$3,368,186

Commitments and contingencies (continued)

In addition, at the time of the purchase of assets from USEH, CXI realized contingent consideration payable to USEH up to a maximum of \$1,325,000 each payable on the first and second anniversary after the purchase. The payout is based on a formula from revenues generated by the acquired customer relationships. Under *IFRS 3 – Business Combinations*, the Company must estimate the likelihood of future revenues to determine the estimated contingent consideration. Management has estimated the first and second anniversary payments at \$892,723 and \$585,144, respectively.

Off-Balance Sheet Arrangements

There are currently no off-balance sheet arrangements which could have an effect on current or future results or operations, or on the financial condition of the Company.

Hedging Activity

Other than as noted below, the Company does not engage in any form of hedged, derivative or leveraged trading. The Company does not extend margin or leverage to any of its customers.

The Company enters into non-deliverable foreign currency forward contracts on a daily basis to mitigate the risk of fluctuations in the exchange rates of its holdings of major currencies. Changes in the fair value of the contracts and the corresponding gains or losses are recorded daily and are included in commissions on the consolidated statements of income and comprehensive income. The Company's management strategy is to reduce the risk of fluctuations associated with foreign exchange rate changes. The foreign currency forward contracts can be closed immediately resulting in the collateral being liquidated.

At April 30, 2014 and October 31, 2013 approximately \$319,465 and \$200,707, respectively, were being held as collateral on these contracts and are reflected as restricted cash held in escrow in the consolidated statements of financial position.

Transactions with Related Parties

The remuneration of directors and key management personnel during the three and six month periods ended April 30, 2014 and the three and six month periods ended March 31, 2013 were as follows:

	Six months ended		Three months ended	
	April 30, 2014	March 31, 2013	April 30, 2014	March 31, 2013
	\$	\$	\$	\$
Short-term benefits	458,324	256,771	213,044	132,747
Post-employment benefits	5,618	7,920	3,087	2,504
Stock based compensation	298,365	127,682	131,797	83,441
	762,307	392,373	347,928	218,692

On October 29, 2013, the Compensation Committee of the Board of Directors approved a short term incentive plan (“**STIP**”) for key officers and executives of the Company. The maximum amount of STIP payable for key officers and executives for the fiscal year ending on October 31, 2014 will be \$416,000 and will be paid upon the achievement of performance objectives.

Management Discussion and Analysis
 (All amounts expressed in U.S. Dollars unless otherwise noted)
 For the three and six month periods ended April 30, 2014 and March 31, 2013

The Company incurred legal and professional fees in the aggregate of \$99,944 and \$122,196 for the three and six month periods ended April 30, 2014 (three and six month periods ended March 31, 2013 \$14,653 and \$24,228, respectively) charged by entities controlled by directors or officers of the Company.

On March 9, 2012 the Company completed its initial public offering described in Note 15 of the Condensed Interim Consolidated Financial Statements for the three and six month periods ended April 30, 2014 and the three and six month periods ended March 31, 2013. Officers and directors who participated in the offering combined to purchase a total of 8,100 units.

Option Grants

The Company adopted an incentive stock option plan dated April 28, 2011 (the "Plan"). The Plan is a rolling stock option plan, under which 10% of the outstanding shares at any given time are available for issuance thereunder. The purpose of the Plan is to promote the profitability and growth of the Company by facilitating the efforts of the Company to attract and retain directors, senior officers, employees, management and consultants. Vesting terms under the Plan will occur 1/3 upon the first anniversary, 1/3 upon the second anniversary and 1/3 upon the third anniversary of the grant unless otherwise specified by the Board of Directors. Options issued to the Company's directors on October 29, 2013 vest over a one year period.

Below is information related to each option grant:

Date of Grant	May 4, 2012	December 17, 2012	May 3, 2013	October 29, 2013	October 29, 2013

Total		378,060		68,666

Subsequent events

The Company evaluated subsequent events through June 3, 2014, the date these financial statements and MD&A were issued. There were no material subsequent events that required recognition or additional disclosure in the financial statements.

Accounting standards and policies

The Company's accounting policies are described in Note 2 to the Company's audited consolidated financial statements for the thirteen-month period ended October 31, 2013. The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions which affect the amounts reported in the financial statements and accompanying notes.

Management Discussion and Analysis
(All amounts expressed in U.S. Dollars unless otherwise noted)
For the three and six month periods ended April 30, 2014 and March 31, 2013

Risk factors

Major risk factors identified by management are outlined in the MD&A section of the Company's 2013 Annual Report, along with the following major risk factors:

Credit Risk
Foreign Currency Risk
Interest Rate Risk
Liquidity Risk

Credit Risk

Credit risk is the risk of financial loss associated with counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and accounts receivable. All domestic and international banking relationships are selected by senior management. The Company maintains accounts in high quality financial institutions. At various times, the Company's bank balances may exceed the federally or provincially insured limits.

The credit risk associated with accounts receivable is limited, as the Company's receivables consist primarily of bulk currency trades with a settlement cycle of 24 to 48 hours. There is minimal counterparty risk as the majority of the Company's receivables reside with banks and other financial institutions. For the purpose of risk control, the customers are grouped as follows: domestic and international financial institutions, money service businesses and other customers. Credit limits are established for each customer, whereby the credit limit represents the maximum open amount without requiring payments in advance. A breakdown of accounts receivable by category is below:

	At April 30, 2014	At October 31, 2013
Customer type	\$	\$
Domestic and international banks	444,453	443,739
Money service businesses	4,963,063	584,109
Other	54,738	5,511
Total	5,462,254	1,033,359

These limits are reviewed regularly by senior management.

The maximum exposure to credit risk is represented by the carrying amount of each financial asset on the statement of financial position. There are no commitments that could increase this exposure to more than the carrying amount.

Management Discussion and Analysis

For the three and six month periods ended April 30, 2014 and March 31, 2013

Foreign Currency Risk

The volatility of the Company's foreign currency holdings may increase as a result of the political and financial environment of the corresponding issuing country. Several currencies have limited exchange rate exposure as they are pegged to the U.S. Dollar, the reporting currency of the Company. Management believes its exposure to foreign currency fluctuations is mitigated by the short-term nature and rapid turnover of its foreign currency inventory, as well as the use of forward contracts to offset these fluctuations. Due to their nature, some minor and exotic foreign currencies cannot be hedged or are too cost prohibitive to hedge. In order to mitigate the risks associated with holding these foreign currencies, the Company assigns wider bid/ask spreads and maintains specific inventory targets to minimize the impact of exchange rate fluctuations. These targets are reviewed regularly and are increased or decreased to accommodate demand. The amount of unhedged inventory held in vaults, tills and in transit at April 30, 2014 was approximately \$3,960,000 (October 31, 2013 - \$3,040,000). The amount of currency that is unhedged and that is not pegged to the U.S. Dollar is approximately \$2,670,000 (October 31, 2013 - \$1,550,000). A 2% increase/reduction in the market price for the aggregate of the Company's unhedged/un-pegged foreign currencies would result in an exchange gain/loss of approximately +\$50,000/-50,000 (October 31, 2013 gain/loss of approximately +\$30,000/- \$30,000).

On a consolidated basis, the Company is also exposed to foreign currency fluctuations between the U.S. Dollar and the functional currency of its subsidiary, the Canadian Dollar.

The Company does not hedge its net investment in its foreign subsidiary and the related foreign currency translation of local earnings.

Interest Rate Risk

At April 30, 2014, the Company had access to interest bearing financial instruments in cash and short term note payables. A significant amount of the Company's cash is held as foreign currency banknotes in tills and vaults. These amounts are not subject to interest rate risk. Cash held in some of the Company's accounts are interest bearing; however, since prevailing interest rates are low there is minimal interest rate risk. Borrowings bear interest at fixed and variable rates. Cash and borrowings issued at variable rates expose the Company to cash flow interest rate risk. For the interest rate profile of the Company's interest bearing financial liabilities, refer to Note 11 of the consolidated financial statements for the six-month period ended April 30, 2014.

The Company manages interest rate risk in order to reduce the volatility of the financial results as a consequence of interest rate movements. For the decision whether new borrowings shall be arranged at a variable or fixed interest rate, senior management focuses on an internal long-term benchmark interest rate and considers the amount of cash currently held at a variable interest rate. Currently the interest rate exposure is un-hedged.

If interest rates had been 50 basis points higher/lower with all other variables held constant, after tax profit for the three month period ended April 30, 2014 would have been approximately +\$250/- \$250 higher/lower as a result of credit lines held at variable interest rates.

Risk Factors (continued)

Liquidity Risk

Liquidity Risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The CFO informs the CEO, the Board of Directors, and the Audit Committee of capital and liquidity issues as they occur in accordance with established policies and guidelines. The Company targets to have a cash reserve or credit lines greater than 15% of the Company's prior year's revenues.

The following are non-derivative contractual financial liabilities:

At April 30, 2014				
Non-derivative financial liabilities	Carrying amount	Estimated contractual amount	This fiscal year	Future fiscal years
	\$	\$	\$	\$
Accounts payable	2,082,846	2,082,846	2,082,846	-
Contingent consideration	1,477,867	1,477,867	-	1,477,867
Line of credit	1,825,000	1,825,000	1,825,000	-
Accrued expenses	758,783	680,879	680,879	-
At October 31, 2013				
Non-derivative financial liabilities	Carrying amount	Contractual amount	Next fiscal year	Future fiscal years
	\$	\$	\$	\$
Accounts payable	2,918,054	2,918,054	2,918,054	-
Accrued expenses	801,166	757,237	757,237	-

The Company had unused lines of credit amounting to \$6,175,000 at April 30, 2014 (October 31, 2013 - \$4,000,000).

The Company manages capital through its financial and operational forecasting processes. The Company reviews its working capital and forecasts its cash flows based on operating expenditures, and other investing and financing activities related to its daily operations.

The Company monitors its capital structure and makes adjustments according to market conditions in an effort to meet its objectives given the current outlook of the business and industry in general. The Company may manage its capital structure by issuing new shares, obtaining loan financing, adjusting capital spending, or disposing of assets. The capital structure is reviewed by management and the Board of Directors on an ongoing basis.
